JANYA WALIA

Waterloo, ON · 647-922-8624 · janyawalia282@gmail.com · https://github.com/Janya282 · https://www.linkedin.com/in/janya-walia/

EDUCATION

Wilfrid Laurier University · Waterloo, ON *2023 – 2027 (Expected)*
BSc Computer Science · Minor in UX Design · Undergraduate Certificate in Generative AI

TECHNICAL SKILLS

Languages: Python, Java, C#, JavaScript, SQL, HTML, CSS
Tools: VS code, Eclipse, Git, Linux/Ubuntu, React, PyTorch, Canva, Figma, Blender
Competencies: Full Stack Web Dev, NLP, UX Design, Responsive Design, Data Visualization

PROJECTS

Personal Portfolio Website · HTML · CSS · JavaScript *janya282.github.io*
- Custom coded from scratch over several months; showcases front end builds, 3D/UX work, and projects.
- Designed with accessibility and responsive layout as core requirements.

Laurier STEM Publishing Society Website · HTML · CSS · JavaScript *2025 – 2026*
- Led full development lifecycle as VP: designed responsive pages, managed deployment, and set reusable component standards.
- Coordinated with publishing and design teams to serve hundreds of students; standards reduced team build time significantly.

Car Rental System · HTML · CSS · JavaScript · SQL · REST API *2026*
- Built a full stack car rental application where users can browse, filter, and book vehicles through a responsive front end connected to a live SQL database via REST API.

LSTM Headline Generation · Python · PyTorch · Hugging Face *2026*
- Implemented an LSTM sequence-to-sequence model with Bahdanau attention and beam search decoding in PyTorch, training a 77.8M-parameter encoder-decoder on 50K+ Gigaword article/headline pairs..

LEADERSHIP & EXPERIENCE

VP of Web Development · Laurier STEM Publishing Society, Wilfrid Laurier *Sep 2025 – Current*
- Owned and maintained the society website end to end, from feature builds to deployment, using HTML, CSS, and JavaScript.
- Introduced shared component standards that cut page build time across the team.

Academic Tutor – Intro to Programming · Laurier SOS, Wilfrid Laurier *Sep 2025 – Apr 2026*
- Tutored first year students in core programming concepts, adapting explanations on the fly to different skill levels.

Tutor · A to Z Tutoring *Mar – Aug 2025*
- Delivered academic support in coding, math, and English; designed personalized learning plans and tracked student progress.

RELEVANT COURSES

Computer Networks A− · Studied network protocols, TCP/IP, socket programming, and client server architecture.
Data Visualization A+ · Designed charts, dashboards, and interactive visuals to communicate data clearly to non technical audiences.
Software Engineering A+ · Applied Agile methodologies, software design patterns, and full project lifecycle management.
Artificial Intelligence A · Applied problem solving, automated reasoning, pattern classifications and recognition.
